

EPA-R8-2020-004130 - 3403 Brighton Blvd Brownfields

The property had a Phase II brownfields assessment performed on the site under a brownfields assessment grant to the City and County of Denver. EPA does not receive copies of the Phase II assessment, so there won't be anything in the file. The requester would have to contact David Wilmoth at the City and County of Denver. Also, the site name is the River North catalytic site. It is not the name of a company. Below is a link with some information about the work that was done.
